Attorney Docket No.: 23424-016

METHOD AND SYSTEM FOR COLLABORATING ADVISORS

Abstract

5 The present invention provides a common collaboration tool to interact, communicate

and serve a client in a coordinated manner in various areas of interest. The present invention

enables a client to authorize selected advisors as well as other participants to view, discuss,

modify and perform other operations in response to the client's request for services. A client

may define the scope of authorization for advisors and/or other participants for security and

confidentiality reasons. Advisors (and/or participants) may access information submitted (or

authorized) by the client to collaborate as a cohesive team in sharing information, devising a

plan, addressing client's concern, drafting (or modifying) a document and performing other

services for the client. The present invention provides a mechanism to implement planning in

an organized and efficient manner, by promoting consistent and accurate collaboration of

resources, tools and efforts.
